

Install LibreCAD

The official release is hosted at [Github](#).

We also use SourceForge for Windows installers and OS X apps.

- [OSX](#)
- [Windows](#)

Most linux based operating systems have packages:

- Arch Linux
- Debian / Ubuntu
- Fedora
- Gentoo
- OpenSUSE

It is recommended to check the release of this package as it may be a bit old.

Information is also provided in the [Install section](#) of the User Manual.
