

# Animated Tutorials

In this **Animated Tutorials** series, one will get a basic ideas of - how **tools** are used to create drawings.

This tutorial will guide step by step to understand from very basic behavior of tools. In other word, it can be an **Animated User Manual**. In order to see GIF images, image should be open in individual page or new tab and then click the image.

Contents of this Tutorial will follow as mentioned below. (Tutorials of remaining tools will be uploaded as soon as it will be ready).

- Before moving to tutorials, one should keep in mind the following things: \* Mouse button action.
- Right click works as same as 'back' when command is active (not as 'Esc').
- \* 'Space' can be used as an 'Enter'

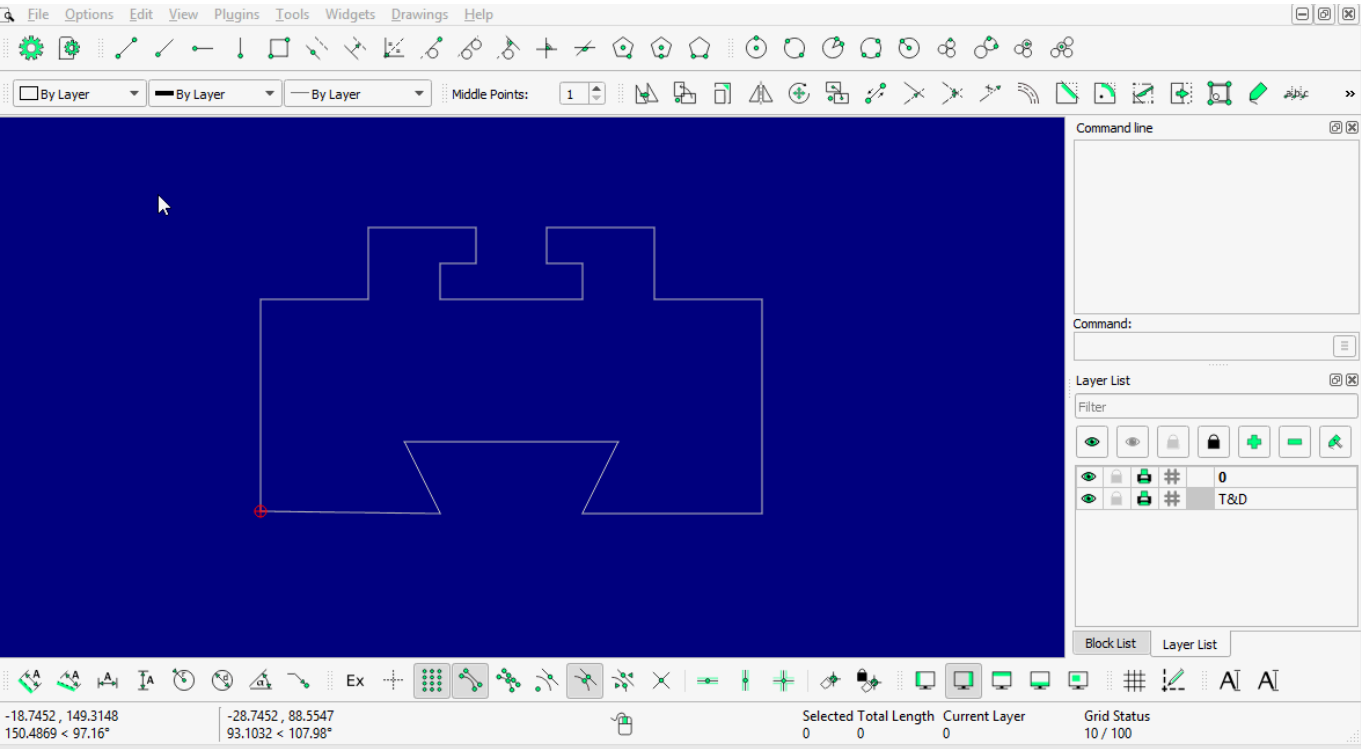

## Contents Of Tools

Line	Circle	Modify
2 points	Center Point	Move / Copy
Angle	2 Points	Rotate
