# Animated Tutorials

In this **Animated Tutorials** series, one will get a basic ideas of - how **tools** can be used to create drawings.

This tutorial will guide step by step to understand from very basic behavior of tools. In other word, it can be an **Animated User Manual**.

Contents of this Tutorial will follow as mentioned below.

- **Line**
- **Circle**
- **Modify**

Note: The focus of this tutorial is only for Tools. For User Interface, Preferences, Toolbar setting related tutorial could be in different tab/page inside Wiki or will be uploaded soon here, Animated Tutorial page.

It is advisable to look frequently at **Command Line** and near to **Mouse icon** inside 'status bar' at the bottom, to understand how command's 'inputs' works and what left and right mouse button do.

Contents Of Tools

Line	Circle	Modify
2 points	Center Point	Move / Copy
Angle	2 Points	Rotate
